What does it mean to be a (TI) Targeted Individual?

A lot of people hear the term, but what does it really mean to be a Targeted Individual? I mean we all think we know about the torture, surveillance and betrayal, but it’s just the surface. You can never fully describe the experience till you have lived it.

07/13/2016 – 5:35pm – Inside the Safeway 3820 Rainier Ave South. Seattle, WA, 98118

They Hate Cameras and will often look away in anticipation of the camera in their face.

Family - If you have a family and you are a target it means having to watch your families gets torn apart by this. It means being brutalized daily. It might mean having a spouse who is a Citizen Informant/Snitch divorce you and get custody of the kids.

There are lot’s Citizen Informants, (snitches) men and women, who do these things. Marry people just to mess them up later. Markus Wolf coined the term Romeo Traps, Honey Traps as seen in the article below to describe these people.

Partner - If you are lucky, and mean lucky enough to find someone who loves you, cares about you, and can handle this, then you are doing well. The last thing you need is someone who is an intimate infiltration, or just a really bad choice. Even if you are lucky enough to find loyalty and someone who won’t betray your trust, then you might still end up like Jeremy Blake and Theresa. Jeremy seems to have stayed loyal and true to Theresa and what did it get them?

Children - You can expect your children to be targeted. One man has had to move his family 5 times, he has had to watch and listen to his young children be tortured in their beds, while they try to sleep at nights. He blew the whistle and now he has lost his job, and is forever on the run. Many people have lost their kids, or had to go through the horror of seeing what is being done to them, perpetrated on their kids.  http://www.thehiddenevil.com/targets.asp
School - I have heard of Targeted Individuals who have their kids attacked, or picked on at school, by the children of the Citizen Informants, just one more way Targeted Individuals are made to suffer. Wolves in Sheep’s Clothing

Evaluating what you see on the Internet can be tricky, and nowhere more so than in the murky realm of gang stalking, which is all about deception and secrecy. Prime examples of this are FFCHS and OSI. Ostensibly, these two groups are support groups for gang stalking victims; actually, they are disinformation front groups organized by perpetrators of stalking crimes -most likely, corrupt cops – and former cops – associated with the LEIU (Association of Law Enforcement Intelligence Units), or the FBI (Federal Bureau of Investigations), or both. These groups were created so that victims will turn to them – rather than forming their own legitimate advocacy groups to lobby Congress and the news media to investigate illegal counterintelligence operations (“gang stalking”).

Tuesday – 07/12/16 18:33pm – Her and her friend were jabbering away in front of me at the Safeway of Rainier So. & So. Andover St in South Seattle, 1st picture her friend an older female had hopped out of the car ½ block away and she acts like she doesn’t see or that I won’t remember her face, picture 2 and 3 is taken after she realizes that I’m following her and she can’t lose me. Location Franklin HS one mile to the North.

If she only knew what happened to the Gang Stalker below. (Fuckin Rookie).

Christina Orozco (Orozco) appeals her conviction for stalking. She argues that the trial court erred by refusing to disqualify the Snohomish County Prosecutor's Office (the Prosecutor's Office) because one of its attorneys assisted her victim in obtaining a civil anti-harassment order. She fails to properly raise any relevant Washington rule, statute, or case to support her claim that a prosecutor's office cannot assist a county employee in obtaining a civil anti-harassment order against another county employee and then later prosecute the offending employee criminally without creating an impermissible conflict of interest. We affirm.

The perpetrator in question, one Christina Orozco, was tried and convicted of felony stalking. The tactics are all quite familiar to most Targeted Individuals. Upon conviction, Orozco promptly got into her vehicle and drove off a cliff. Unfortunately, Orozco did not have the common decency to die a lingering death, or at least become horribly disfigured.

**Eugenics**

For some reason, there are considerably more women targeted than men. Why would women be targeted at a much higher percentage than men? This is another question we may never have the answer for, so this is partially speculation. But one possible answer is that the elite have sponsored eugenics projects worldwide for decades. Removing fertile females from a target population is apparently a standard eugenics procedure. Families such as DuPont, *(Life thru better chemicals)* Harriman *(Bush Family)*, & Rockefeller *(“Competition is a Sin”)* have funded projects for population control.

“It was John D. Rockefeller III who was appointed by Richard Nixon as chairman of the newly created Commission on Population Growth and the American Future,” stated Allen. He quotes Rockefeller as saying, “Rather than think of population control as a negative thing, we should see that it can be enriching.” Allen contends, “Curbing population growth is just part of the Rockefeller war on the American family.”

If you are a chic and you are targeted, expect them to try to fry, microwave your reproductive organs, and if you are lucky enough to still be able to get pregnant after that, then expect them to try to go after your child in-utero. If you are pregnant, my suggestion, don’t mention it. If they have not already tried to destroy your reproductive organs, or unborn, then don’t give them reason to.

The thing about being female is you carry all the eggs you will ever have, and if they do fry and destroy what you have, that might be it, well expect for cloning of course. If you are a guy, expect them to go after the nether regions, luckily guys can reproduce from scratch and it won’t mess up your reproductive organs, unless they use the radioactive stuff like they did in East Germany. Still you are better off being a guy than a female when it comes to this aspect of the targeting.

**Stopping A Stalker - Capt Robert L. Snow - A cops guide to making the system work for you**
Sunday 07/10/16 17:53pm – Viewing East above the I-90 Tunnels – 3 are on standby (2) other vehicles not shown. Well known for vehicle patrol “loitering area” where 2 to 4 shifts will standby waiting for targets to intercept and follow.

**Betrayal** - Oh my favorite one. Expect to be betrayed, till you bleed emotionally. Friends, family, strangers, co-workers, you will literally have a whole society that is out to get you, or it will feel that way. Many may not want to, but they still do it, and it’s still betrayal. You will learn not to trust, you will learn that just like East Germany, most people have a price and when things get just a little bit uncomfortable most people crack. Most people are not geared for government torture or torment. - [http://www.thehiddenevil.com/tactics1.asp](http://www.thehiddenevil.com/tactics1.asp)

**Jobs** - Most TI’s cannot hold down a job. Before my targeting started, I don’t think I ever lost one job. After that was another story, as you can tell by some of my postings. The last two years have been interesting. Not to mention the 8 years before of workplace mobbing, harassment, etc. - [http://www.thehiddenevil.com/tactics2.asp](http://www.thehiddenevil.com/tactics2.asp)

**Travel** - I don’t really travel much outside the country. Travel to work is again filled with community spies traveling with you from one place to the next. For Targets that have travelled outside of the country and to other places, I have heard that it often times makes little or no difference. You are followed, so travel is not that much fun.

**Rumors** - Having people say you are crazy, pedophile, rapist, racist, prostitute, etc. You pick something they will use one or more and then have you destroyed reputation wise by false rumors. Surveillance - 24/7. This means you can expect to never have any privacy again, it’s like
getting violated by the eyes and ears of the state every freaking waking hour. It’s like being under the eye of Sauron in Lord of the Rings.

Targeted Individuals Exposing Gang Stalking – KENS 5 San Antonio

Attacks - Physical and psychological attacks become routine. Cars trying to hit you, people trying to provoke you, psychological warfare, that I am told is used on prisoners to break them, is used on you. Monitored-Again everywhere you go, everyone you talk to, it’s the same thing. They want to know everything you say and do, and yes they will if they can, get mind readers, or use artificial mind reading to monitor you. That is messed up.

So if you are a target, have a cell phone, computer, they could remotely download software, and use your camera and microphone, to monitor you. Hear everything you say, do, and monitor your location. Eg. As far as I know, I can’t get on the Internet without some freaking snitch remotely giving me access. My computer use to always log on the Internet. Now before it does, I can hear from outside, the signal being given, and then my computer gets on the network. They can shut down my access to the net, when they want to, seen it before.

Followed - 24 freaking 7. Never a day goes by when you are truly alone.

Finances - Expect to have a lot of downtime. A lot of times targets don’t or can’t hold jobs, due to the physical and psychological attacks. Many like Mark M. Rich have to find other ways to survive.

Sunday 07/10/2016 20:47pm – Seward Park – A convoy of all types of vehicles, taxi cabs, pizza delivery, moving vans. You could be stopped at a light and from every direction there will be up to 2 dozen vehicles coming and going in all directions creating a swarming affect. The FBI calls it the “floating box” where there are vehicles on every side of you as close as a lane to a quarter
mile out. I always have to remember that these drivers are not FLETC trained, however over the years they are getting better at their coordination & communications skills.

Torture Burns - What can I say, when they use lasers on you, microwaves, static electricity? Expect burns. I have almost been electrocuted. I have had electrical burns, parts of my skin peel off in the shower, due to burns. I mean I have been worked over for the last two years, but it comes with the territory. Like Kyle from Terminator says, you just learn to disconnect from the pain. You don’t fully, but you adjust, and you learn to shield.

Poisoning - Been pretty lucky on this one. Well I pretty much switch to one person helpings, out of cans, and try not to do fast food unless I can see it being prepared. If you have kids, get one sized portion servings of milk, and never leave anything over. I also wrote about the mom that found her son’s medicine for his diabetes had been watered down. Take medicine with you.

Sleep Deprivation -Well I have not been getting much for the last two years, as you know they try to keep me awake at nights by frying and trying to burn and shake the daylights out of me. Again you learn to function on very little, and get what sleep you can. There is so much more fun stuff that I could write about, but to get a cumulative picture, you have to read the blogs of others watch their YouTube postings, visit their sites etc.

This is not even close to some of the stuff that’s happened. This was just some off the top of my head stuff. What it means to be a target, means in some ways to be an outcast to a life you once knew, or thought you knew, it means to be betrayed and lied to, by your country, friends, family, loved ones. It means to be unable to plan for the future the way you once did. You don’t know if you will have a job, any kind of relationship, and if you do, you don’t know if your partner will be some snitch hired to mess you over.

It means really thinking about having kids. If you don’t already and you are a targeted individual, I would really think long and hard about it. Eg. How do you support kids without a job? Watch them get tortured? It’s to worry about this creepy society trying to put you in jail, a mental hospital, force you to commit suicide or to get so pissed you one day open fire, like Kimveer Gill did. It means so many things you never thought that life would mean. It means taking it day by day. It means surviving one day at a time. It means going numb, but not too numb, learning to not feel, too much. Learning not to trust. It means that life is never going to
be like how you thought it was going to be. It might also mean never really finding someone you can trust who will understand this.

**It means going up against the state if you don’t want to turn Citizen (slave) Informant.**

It means so many things, I can’t even begin to list or think about, but it means that your life will never be the same again, not the way you once knew. It means getting a little tougher, getting your game face on. Learning to truly see and regard humanity for what it always was, what it probably always will be.

Learning to get in touch with your inner who you are going to become. Seeing if you have what it takes and realizing that you must or else your destiny will be one of the above mentioned, jail, institution, suicide, or mass murder. (Sure there might be other options, but those are the popular four.) Crying at times, losing it and getting angry at times, especially in the beginning. (Save up the anger stuff for home, as best as you can.)

If mean so many things, it means saying good-bye and hello to an unsure future, but then realizing that the future was always unsure, the world was too, and it’s just your realization that’s changed. Everything is just the same as it always was, it’s just your awareness that’s changed.

Those are some of the things that it means to be a Targeted Individual. What does it mean to you? Let me know. Holla back, and remember.

“The ultimate measure of a man is not where he stands in moments of comfort, but where he stands at times of challenge and controversy.”
